The Intelligencer is delivered by carriers in the city. If you fail to get your paper regularly please notify us. Opposite your name on label of your paper is printed date to which your paper is paid. All checks and drafts should be drawn to The Anderson Intelligence. son Intcingencer.

A modern hand extinguisher—the rolling pin.

Watchful waiting in Andersonlooking for pay day,

Wonder how some women get around the fact that the Bible says: "obey your husband."

They say that strawberries are plentiful in Gaffney. But who wants to live in Gaffney?

Things are never so bad as they might be. Some people actually have to live in Yorkville.

A Bill Moose and an Elephant side by side would make two grand little exhibits for some museum.

Two varieties of peaches were seen In Anderson yesterday—one in baskets and the other in slit skirts.

We heard Vesterday that there are till three men in the city who have nt yet been "urged" to run for al-

editorial page of the Columbia State hore a most woe-begone look yesterday. There was no "Aftermakh."

At 12:01 this morning John Duncan was still running for Governor and Cansler of Tirzah is expected next

People in Vicksburg, Miss., do not know what a treat is in store for them. Porter Whaley will speak there

North Carolina isn't as bad as we thought. The people of one town in that state have given their newspaper editor a two week's vacation.

yeuterday which leads us to believe that there is some truth in the saying "The devil takes care of his own."

Tomorrow will tell the tale about the Interurban league. If the assoimmediate section.

Anderson surrendered to the Vet erans it is not only about a fortnight until we will have to run up the white fing again—the "Best People of Earth" are here in June.

And now the usual investigation will be begun and learned men will endeavor for two weeks to place the blanie of Friday's ship disaster. It will end like all the rest, with nothing

forms, running their stores and attending to their private business as they do working for some politicians, this would be a vastly richer county.

dance at the city schools of erson during the past session is

#### MACHINERY OF ELECTION ACTIVE angeburg has a fair association and

The first definite action taken in adopted at the State convention will for the stockholders resulted. Wal-. . Billion of the very greatest importance. At ceding. Barnwell has proved that this meeting each county committee county fairs are profitable, to say will proceed to "lay out and designate each club district and its boundaries as provided in these rules, and at that time may form any new clubr which they may deem advisable

The following are the qualifications for membership in a club as provided in Section 6 of the new

6. The qualifications for mem-bership in any club of the party in this State, and for voting in a primary shall be as follows: The applicant for membership or voter, shall be 21 years of age, or shall become so before the suc-ceeding general election, and be a white Democrat. He shall be a citizen of the United States and of this state. No person shall be-long to any club or vote in any primary unless he has resided in the State two years and the county six months prior to the suc-ceeding general election and in the club district 60 days prior to the first primary following his offer to curoll: Provided, That publis school teachers and ministers of the gospel in charge of a regular organized church shail be exempt from the provisions of this section, as to residence, if otherwise qualified.

It might be well to refer to the penalties for fraudulent enrollment as provided in section 370 of the criminal

"Any person who shall fraudulently procure the regis-tration of a name or names on the party registration lists or the rolls, in violation of the party rules or otherwise \* \* \* \* or who shall aid, counsel or shet another in so doing, either as to said fraudulent registration or said fraudulent attempts to vote, thall be deemed withing. shall be deemed guilty of a mis-demeanor and on conviction shall be punished by a fine of not less than \$100 nor more than \$500, or be imprisoned for a term of not less than 30 nor more than 90 days, or both, at the discretion of the court."

Thus it will be seen that the machinery for absolutely honest electtions has been provided by the State convention and by the General Assembly. It remains for the voters to cheerfully acquiesce in these rules and thus insure that no crookedness can be charged to the primary this year. Honest men should be willing to abide the result of honest elections; others should be made to do so.

#### ANDERSON'S SCHOOLS

Every Andersonian should feel proud of the records made by the schools of the city for the past sesion. If the saying that one can judge community by its churches and its, schools is true, Anderson snould have very commendable pride in the judgment that will go forth wherever the standing of her schools and her churches is known.

A total enrollment of her schools of 3,588 during the past session is climbing at a very gratifying pace. Surely there is not much need of compulsory education in this city. But lest we be misunderstood, we wish to state that if there is one boy or girl who has the capacity for learn-Greenville county had a good rain ing, needlessly kept away from see that such boy or girl is given an opportunity to prepare for an equal battle in life.

With such schools as the city has, there is strong probability that the cotion is formed there will no future Calhouns will continue to come longer be any scarcity of rain in this from Anderson. We take off our hats to Superintendent McCants, his able faculty and the board of trustees for the splendid achievement.

#### POLITICAL POT WILL BOIL.

The political pot in Anderson couny will soon be bubbling over, and the present indications are that there will be some lively doings a little later. Candidates will begin to come thick and fast from now on, the issues defined and the lines closely drawn. The expressed intention of all the candidates is to conduct a clean and If the people of Anderson would high toned campaign free from any mud slinging. This is greatly be high toned campaign free from any desired and it is hoped will be strictly adhered to during the entire campaign. There are certain issues to be discussed, and the people informed on such matters as they are not post- of them.

Colleton County Fair, and each one These will be very busy meetings and has been better than the one prenothing of fairs held in other places

in the State.

Another example comes to mind from another state. Hopkinsville, Ky., is a little city much like Anderson. hough not so populous. It is the center of the Pennyroyal district of Kentucky and has surrounding it fertile farming lands. No cotton is tile farming lands. No cotton is grown or manufacturede there, but there are great amounts of wheat and grain grown, and some good live stock. The people are independent and prosperous. Last year it was deided to organize a Pennyroval fair. and the chamber of commerce got busy and put up the necessary buildings and a half mile race frack was laid off. The fair was one of the most successful ever held in that state, and paid the stockholders almost a hundred per cent dividend. The people flocked into Hopkinsville from evevry side by the thousands, and the city got some of the best advertising that could possibly have been given. This year plans are under way for making it greater and grander than ast year.

What the Pennproyal city has done. an be done in Anderson by a great Piedmont fair. What has Secretary Whaley and the chamber of commerce to say on the subject?

#### NAMES OF THE ORIGINAL STATES

It will no doubt surprise most of us to realize, when our attention is called to it, how little we know of the origin of such familiar names as those of the thirteen original colonies that declared their independence of Great Britain and fought the war of American liberty more than a century and one third ago. The following article contains some facts that will

doubtless prove new to many:

New Hampshire was named from
Hampshire, England, from which
country many of the early settlers

Massachuesetts was so called from the Indian word meaning Great Hills Place, probably from the heights of and near Boston.

Rhode Island was called Rhode Eye-landt by the Dutch because of the red ranberries which covered the largest island in Narragansett Bay. Connecticut was called Quoneckta-

cut by the Indians, meaning Long Ri-ver, and the settlers applied it to the New York, first called New Netherlands by the Dutch, was changed in honor of James, Duke of York, to

whom his brother, Charles II gave large grants in the colony. New Jersey was named for Sir Geo. Carteret, Governor of the Island of Jersey. It was originally called Nova Caeserea, New Caesar. meaning Penn's

Pennsylvania.

voodland from the Latin.sylvania and Villiam Penn. Delaware was named from Lord de a Warr, one of the early proprietors. Maryland after Henrietta Maria, the Queen of Charles I of England, at the request of the King to the proprie-

Virginia, named after Elizabeth, the Virgin Queen of England.

North and South Carolina, original-

y. Carolina after Charles IX (Caro-us) of France. us) of France.
Georgia, named after George II of England, who chartered it as a colony in 1732.—The Columbia Record.

#### Lands at Vera Cruz.

Vera Cruz, May 30.—The German steamer Ypiranga, which is alleged to have recently landed at Puerto Mexico school, the State should step in and a cargo of guns and ammunition for General Huerta, came in to dock here today.

Karl Heynon, agent at Mexico City of the Hamburg-American line, who is said to have arranged for the land-German consul and Captain Herman O Stickney, collector of the port, immediately conferred with the ships mas-

### IMPORTANCE OF RURAL TELE-PHONES.

Atlants May 30.—Special:—Rural telephones are beginning to play just as important if not more important part than either rural free delivery or parcels post, in putting the farme on an economical equality with the

The growth of rural telephones on the lines of the Southern Bell throughout Georgia and other south-orn states is as interesting as a romance. A generation ago the average farmer was isolated. Today he is no more isolated than his city neigh-

It is directly as the results of these facilities that the average southern farmer has developed into a compe-tent business man, a salesman of his own products, as well as a producer

on such matters as they are not posted upon. So there will be plenty of topics for discussion other than per topics for di

the paper I do. LADYLIKE HUSBAND.

(National Food Monthly).
Mrs. Goodwin—I wish to select a present for my husband, and I can't find anything suitable. He doesn't smoke or drink, or go out nights or play early. play cards. Salesperson-Is he fond of fancy work?

#### TOUGH LUCK. (Washington Herald). "We won't discharge you, Mr. Per-kinr," said the manager. "We shall allow you to tender your resignation." "Tendering it won't make it any tile less tough," gloomily returned the man who was laid off.

OF COURSE SHE KNEW.

Now, for instance, there is a Mozart's Tweifth Mass. You remember

that, Mrs. Hiscomb?"
"Remember it? I should say Why, my husband served through the war in that very regiment.

> THE GUILTY MAN. (Philadelphia Record).

Gentleman (in railway train)—How did this acident happen?
Guard—Someone pulled the cord and stopped the train and the hoat express ran into us. It will take five hours to clear up the line for us to go

Gentleman- Five hours! Great Scott! I was to be married today.
Guard (a married man, sternly.)—
Look here, are you the chap who stopped the train?

#### RED. WHITE AND BLUE.

"I think I'll take a little fish, "Yes, sir. Bluefish or whitefish,

"Bring me a little of each and a portion of a redsnapper. I'm nothing if not patriotic."

#### JOHN T. DUNCAN AGAIN LOSES.

(From The Columbia Record.) Seeking readmission to the bar of his state, John T. Duncan, of Columbia, lost his first-step toward that end when the supreme court refused Friday to hear his verbal motion for review of his case or to accept for illing a written motion, advising him to make such before Attorney Gen-

oral Thomas H. Peeples.

Mr. Duncan had prepared a review of his case containing about a dozen single-spaced typewritten pages of legal cap paper, it was said, which he proposed to file with the supreme court.

After the refusal of the court to hear him, Mr. Duncan did not state what would be his next step in his effort to secure re-instatement before the bar

(Argonaut).

The accomplished and obliging pianist had finished several selections in the hotel parlor and the guests were discussing other members. One turned to an elderly woman and said:

## FARM AT CLEMSON ed in 265 acres of corn and 65 acres of cotton. MAKING MONEY The horse and man power used in

Use of Modern Machinery and Modern Methods Resulting In Large Vieles

Clemson College, Mey 30 .- That Clemson College is able not only to tell others how to make money by Clemson College is able not only to tell others how to make money by farming, but also to make money for itself on its farm is demonstrated by figures which have, just been given out by L. B. Brandon, superintendent of the college, farm. Among other things it is, shown that the farm now has to its credit about \$3,500 and has about \$2,000 worth of corn and hay for sale. The farm, which is under the general direction of Prof. J. N. Harper, director of the Esperiment Station and of the agricultural department, had a most successful year in 1913. One of the agrandating the college farm produced another advant important factors in the production of large crops on this farm was the use of modern machinery.

In 1913 the college farm produced as a tractor duction of large crops on this farm was the use of modern machinery.

In 1913 the college farm produced as a tractor of peas and enough hay to feed. The product of peas and enough hay to feed. The product of the advantage of cotton (on 18 acres), 150 bushels of cotton (on 18 acres), 150 b

proparing and planting this acreage is a follows: one thirty horse power, oil pull tractor; 18 mules, working 6 two-horse plows, 2 two-row plant-ers and a smoothing harrow; and 14

men.
The tractor used on the college farm has a plowing apacity of about fifty minutes and can cover nine acres a day under ordinarily favorable circumstances. It is an oil-pull tractor and practically all danger to the crops from fire is eliminated.

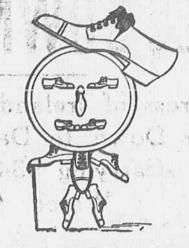

is eliminated.

The plowing capacity of the farm is approximately one hundred acres a seek, enabling the superintendent and his men to seize on every favorable season for work, no matter how short it may be. The use of modern farm machinery eliminates delays and often means saving crops which might otherwise he lost because seasons favorable to working were too short to allow the recessary acreage to be covered by inferior machinery. Another advantage of a machine such as a tractor on large farma is the elimination of time of the men and mules, two of the most expensive factors in making crops.

Acting under the advise of County Demonstration Agent C. B. Faris, several farmers in Greenwood Coun-ty have put in hay forks and some have expressed the opinion that they have never known a greater labor

Too Son to Predict, Neighbor, Greenville News.
